

Tod's / Cappellini Unexpected Icons

In a new project to celebrate the new [Gommino Jeans](#), **TOD'S** and **CAPPELLINI** are renewing their historic collaboration with “**Unexpected Icons**”.

An experiment that makes daring use of unexpected materials to create original alchemies. [Denim](#) for the [iconic Gommino](#) instead of prestige skins enables stitching to create new shapes in absolute freedom. And racing bike frames for **Cappellini's** historic Acciaio Lounge and Acciaio Stool, which acquire a new lightness.

This experimentation with lightweight materials and the surfing atmosphere created to present them provides a clear idea of the project's philosophy.

Tod's [Gommino Jeans](#) puts its unmistakable imprint on **Cappellini** seating to tell a summer story about the unmistakable style of two timeless icons.

This unexpected encounter between two leading design exponents will take place during a cocktail party on Tuesday, April 17th at **Tod's** boutique in Via Spiga, Milan.
